

TCC 3-YEAR CAMP CYCLE: GAUTENG PROVINCE

60%

Every boy on the program will have access to two weekend camps every year.

Each camp will have a theme, topic and activities that support the theme as far as possible. Activities should have well defined outcomes/objectives. Activities might increase in difficulty from year 1 to 3.

MENTors need to read and familiarize themselves with the general camping SOP, as well as the various activity SOP's. We will have camp briefings before any 'special' camps where the briefing will focus on the camp program and activities for that specific camp.

Adventure trips and year end camps will follow separate programs.
